Dear Settlement Professional;

Do you realize how much valuable time is wasted in your office tracking down lenders? Mergers and consolidations in the lending business happen on a daily basis. Often in the time since a loan was originated or satisfied a lender can change names or merge several times.

Lane Guide has been in continuous service since 1957. We are the premier lender data gatherer and the trusted source for industry information. Our files include lender succession history going back 60+ years! Our service is used by title underwriters, escrow offices, settlement and abstractors and title attorneys. If you want to clear title and speed your payoff requests, you need the Lane Guide.
